

STATINTL

SUBJECT: Alien Admissions - Public Law 110

A review of the data available to our office revealed the following:

- A. Approximately [REDACTED] persons became naturalized U.S. citizens and [REDACTED] persons decided to leave the United States.
- B. Those who departed amount to .4 of one percent of the total admitted.
- C. The number of those naturalized is 52% of the total admitted through 1964. The cut off at 1964 was made since most of our cases must wait 10 years before they are eligible for naturalization under Section 313 of the Immigration and Nationality Act.

These figures are approximations and it is possible that the naturalization figure would be higher if each file were to be reviewed and checked with the Immigration Service.
